After 30 minutes we sort of know what we are doing

- Jakob and kyle work on Labels
- Team works together to decide weights and set up features under the new label system
- All Tasks labeled up and assigned
- User Stories main document pushed to Gitlab

Phase 5 planning meeting

- GET TWO FEATURES IMPLEMENTED!!! - All, as much as possible
- Get presentation in order and review your own slides, practice presentation?? -

Kyle, Alec

- Test functions and make sure deployment is successful
- Docker testing?
- Push to git repo when done
- Update gitlab board
- Communication on point, its crunch time**
- Anything else to add: do below
